

RM Nunes Opening Statement

Full Committee Open Hearing: *National Security Challenges of Artificial Intelligence, Manipulated Media, and “Deepfakes”*

Thank you, Mr. Chairman.

I’d like to thank our witnesses, Jack Clark, David Doermann, Danielle Citron, and Clint Watts for appearing before the Committee today.

Artificial intelligence and deepfake technology present a growing threat to our national security, and I look forward to the discussion. Given that we have a lot to cover today, and votes will be called relatively early today, I yield back.
